Urban District Council Offices,
Kilwardby Street,
Ashby-de-la-Zouch.

August, 1972

To the Chairman and Members of the
Urban District Council of Ashby-de-la-Zouch.

Madam Chairman, Ladies and Gentlemen,

I have the honour to present for your information and attention the report of the Medical Officer of Health concerning the sanitary circumstances, sanitary administration and vital statistics of the area for the year 1971.

I wish to thank all the members of the staff of the Council with whom I have come in contact for their ready co-operation, with a special word of mention for the members of the staff of the Public Health Department for the help and support they have given to me at all times. And certainly not least would I express my thanks to all the Councillors themselves for consideration shown to me in various ways.

Your Obedient Servant,

ANDREW HAMILTON

Medical Officer of Health

Private Residence:

"Barony",
15 Neville Drive,
Coalville.

Telephone Number:

Coalville 3723

General Statistics and
Social Conditions of the Area

Area (in acres)	5,985
Population (Registrar-General's estimate to mid.1971)	8,300
Number of occupied houses (estimated) ..	2,967

<u>Deaths</u>			
	<u>M.</u>	<u>F.</u>	<u>Total</u>
	47	52	99
	99		70
Crude death rate per 1,000 population	11.9	11.6	8.7
Adjusted death rate per 1,000 population	12.4	11.6	9.4
Ratio of local adjusted death rate to national rate	1.11	1.00	.80

The estimated population at the middle of the year increased from 8,040 to 8,300.

The birth rate at 15.8 is just below that for England and Wales (16) but is appreciably higher than last year (12.7).

The percentage of illegitimate live births this year is 5, compared with 8 for the country as a whole and with 9 for last year.

One still-birth only was registered (3 last year) with a rate per 1,000 live and still births of 8 for the district, compared with 12 for England and Wales and 29 for 1970.

The death of one infant under 1 year of age from an upper respiratory tract infection occurred giving an infantile mortality rate of 8 per 1,000 live births, compared with 18 for England and Wales and 20 for Ashby-de-la-Zouch in 1970.

There were no deaths of infants under 1 week of age or under 4 weeks of age, whilst the perinatal rate was 8, compared with 22 for England and Wales and 48 for Ashby in 1970.

27 of the deaths recorded occurred outwith the district and 72 within the district, whilst there also occurred within the district the deaths of 23 non-residents, which, of course, are not included in our figures. The death rate, remarkably low last year at 9.4 per 1,000 is slightly higher at 12.9 than that for England and Wales at 11.6.

General Provision of Health Services

In my last report I referred to the fact that it was likely that a Health Centre would be provided by the County Council. This has not yet become an accomplished fact, but I understand that negotiations are well advanced and that a start will be made on its erection in the near future.

Social Services

The Social Services Department of the County Council came into being on 1st April, 1971. An area office was opened at Park House, 43 London Road, Coalville under the supervision of an Area Director to serve an area comprising Ashby Urban District, Ashby Woulds Urban District, Ashby-de-la-Zouch Rural District, Coalville Urban District and part of Market Bosworth Rural District.

This department of the County Council assumed responsibility for all services previously administered by the Children's Department, together with the welfare services of the Health and Welfare Department, which include the welfare of the mentally ill and the mentally handicapped, the physically handicapped and the elderly, the provision of a Home Help service and the supervision of play-groups and child-minders.

Meals on Wheels

12 visits, involving 13 persons, were paid to applicants for this service and almost all were approved.

National Assistance Acts, 1948 and 1951

No formal action was necessary under the above Acts.

Examination of Employees

One employee was examined with a view to assessing his fitness or otherwise for work. He was found to be unfit for work involving more than a moderate degree of physical exertion, and it was considered that undue exposure to the elements was undesirable in that such exposure might aggravate the chronic illness from which he was suffering.

Food Hygiene

A proposal or suggestion was made in the Council in 1970 that a Food Hygiene Exhibition should be staged on lines similar to one which had been successfully held in the town some years ago. Partly because of pressure of work in the Department it was not found possible to implement the suggestion, but a further suggestion was

put forward to the effect that a Food Hygiene handbook should be published in collaboration with the Councils of three adjoining districts. On being approached on the subject the three Councils were prepared to co-operate, so contact was established with a firm which undertakes the publication of such handbooks. 2,000 free copies were to be provided by the Publishers who would be responsible for approaching advertisers and thus financing the operation. It had been the hope that generally speaking each household in the four districts would be supplied with a copy. There are approximately 18,000 households in the combined districts - 2,000 free copies only being available for distribution was much too low a proportion, so this scheme was abandoned too.

The County Medical Officer of Health, to whom the idea had been mentioned casually, stated that he had known of certain local newspapers in other parts of the country which published a Food Hygiene supplement, the material being supplied by the Local Health Authority. Accordingly the local weekly newspaper circulating freely throughout most of the area covered by the four Authorities was approached and immediately the Editor expressed his interest in the project. Eventually early in the year a fairly comprehensive "supplement" appeared in the weekly newspaper with appropriate advertisements and photographs. I wish to express my thanks to the Editor and to the proprietors for their willing co-operation.

Prevalence of, and Control over, Infectious Disease

23 cases of infectious disease were notified, 7 of these were measles, 15 were whooping cough, and one was infective jaundice. The last case was in a boy in the 10-14 years age group. The age and sex distribution of the others is as follows.

	Measles	
	M.	F.
Under 1 year	-	-
1 - 2 years	2	1
2 - 3 years	-	-
3 - 4 years	1	-

Mass Radiography

The Leicester Area Mass Radiography Unit based on Groby Road Hospital, Leicester visited Ashby between 20th April and 29th April and Mr. L. Lee, the Organising Secretary, informs me that 2,567 people were X-Rayed, 948 males and 1,619 females.

Coalville was visited in May and June and the complete list of figures supplied to me is as follows:-

Ashby	2,567
Coalville	4,263
Ibstock	865
Measham	488

a total of 8,183.

At the time of writing no details have become available regarding the number of diseased individuals detected.

ANNUAL REPORT OF THE PUBLIC HEALTH INSPECTOR & HOUSING MANAGER

Council Offices,
Kilwardby Street,
Ashby-de-la-Zouch.

August, 1972

To the Chairman and Members of the
Ashby-de-la-Zouch Urban District Council.

Madam Chairman, Ladies and Gentlemen,

I have pleasure in presenting to you my Annual Report, a record of the work carried out by the Public Health and Housing Department during 1971.

On the first of June, Mr. P.C. Cooper commenced duties as Assistant Public Health Inspector and this appointment resulted in an increase in the work undertaken by the department, particularly the routine work necessary under the Offices, Shops and Railway Premises Act and Food Hygiene Regulations.

In presenting this report, I wish to place on record my thanks to all members of the Council for their help and understanding, for the willing help of the staff, and for the help and co-operation given to me by Dr. Hamilton and the other officers of the Council.

F.H. WYNNE

Public Health Inspector
and Housing Manager

Water Supply

Water is distributed in the area by the North West Leicestershire Water Board.

There has been no shortage of water during the year.

The water is not liable to plumbo-solvent action and the fluoride content is approximately 0.26 parts per million.

Particulars of water supply to dwelling houses in the district are as follows:-

Internal mains water supply -

No. of dwelling houses (estimated)	3,004
Population (estimated)	8,273

Mains water from external standpipes -

No. of dwelling houses	2
Population	2

Well Water Supply -

No. of dwelling houses (estimated)	11
Population (estimated)	25

12 samples of mains water were taken for bacteriological examination. All samples were found to be satisfactory.

57 samples of well water were taken for bacteriological examination. 22 samples were found to be satisfactory.

All persons using well water of doubtful quality were warned they must boil the water before it is used for domestic purposes.

Sewerage and Sewage Disposal

No. of cesspools constructed during the year	2
" " " abolished " " "	nil

Closet Accommodation

Total number of houses in district on 31st December, 1971	3,017
---	-------

Number of houses with:-

(a) Privies	Nil
(b) Pail Closets	8
(c) Water Closets	3,009

One pail closet was abolished during the year.

A survey has revealed that there are still 8 houses with pail closets in the outlying unsewered parts of the district. Every effort is being made to persuade the owners of these houses to install **septic** tanks and water closets.

Public Cleansing

A weekly refuse collection service was maintained throughout the district except during the Statutory Holidays - a total of six days per year when approximately 600 householders do not have their refuse collected for 14 days. The refuse collection service has not closed down for annual holidays since 1966.

The number of dustbins collected per week has increased from 3,684 on the 1st January, to 3,752 on the 31st December.

The bulk of the trade and domestic refuse is still collected using the Dennis Paxit IIIA continuous loading vehicle with a crew of 5 loaders and driver.

The Shelvoke and Drury freighter, which was purchased in 1961, was sold in June and a Bedford Container Handling Vehicle was put into service. This vehicle was supplied with two detachable bodies so that it can be used as a side loading refuse vehicle and as a drop side tipping lorry when it is not being used to handle containers. This vehicle is used to collect refuse from the outlying areas of the district on one day each week.

Several containers, fitted with hinged covers, have been ordered and will be hired to large shops, hotels and other similar premises.

All refuse is disposed of on the tip in Smisby Road which is leased by the Council from the British Transport Commission. Land has been purchased at Lount which will be used jointly as a refuse tip by the Coalville U.D.C., Ashby-de-la-Zouch R.D.C. and Ashby-de-la-Zouch U.D.C. This tip is estimated to have a life of 10 years and should be brought into use in 1972.

Sanitary Inspections of the Area

Total number of complaints received	37
-------------------------------------	----	----	----	----

Total number of premises at which defects or nuisances were dealt with	37
--	----	----	----	----

Six informal notices were serviced under the Public Health Act, 1936. Four notices were complied with.

Agriculture (Safety, Health and Welfare Provisions) Act 1956

Total number of Farms and Smallholdings	36
" " " Horticultural premises	2
" " " Agricultural Properties	38
" " " visits made under the Act	42

The majority of Agricultural Premises are small and have no permanent employees, but casual labour is taken on as required.

Particulars of Inspections madeNumber of Inspections

Animal Keeping	5
Bakehouses	15
Dairies	4
Drainage Works	26
Dwelling-houses	2,479

Total number of inspections	- <u><u>4,200</u></u>

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

Class of Premises	No. Reg. During year	No. Reg.	No. of Ins-pec-tions	Acci-dents report-ed	Contraventions		
					Found	Remedied	Outstanding 31.12.71
Offices	11	35	43	-	27	Nil	27
Retail Shops	21	55	96	2	52	Nil	52
Wholesale Shops, Warehouses	1	2	5	-	2	Nil	2
Catering estabs. open to the public, canteens.	7	9	9	-	9	Nil	9
Fuel Storage Depots	-	1	1	-	1	Nil	1
TOTALS	40	102	154	2	91	Nil	91

It is gratifying to report that all the premises registered under the Offices, Shops and Railway Premises Act received at least one visit during the year. A survey revealed that many premises which should have been registered under the Act had not, in fact, been registered by the owners. All these premises had been registered by the end of the year.

All the informal notices were served towards the end of the year which accounts for the large number of outstanding contraventions as shown in the above tables.

Caravan Sites and Control of Development Act, 1960

Number of site licences issued during the year.

- | | | |
|----------------------|---------|-----|
| (a) Individual vans | | nil |
| (b) More than 2 vans | | nil |

---------------------------------	---

Verminous Premises

Particulars of action taken:-

Number of dwelling houses found infested 1

Number of houses dis-infested 1

Pet Animals Act, 1951

There is one licensed pet shop. One inspection was made during the year.

Rag Flock and other Filling Materials Act, 1951

There are no premises within the area.

Common Lodging Houses

There are no common lodging houses within the area.

Prevention of Damage by Pests Act, 1949

A rodent operator is hired from the Ashby-de-la-Zouch Rural District Council for 8 hours per week.

No major infestations of rats have been found in the area for several years.

No charges are made for treating dwelling houses, but a charge on a time and material basis is made for treating business properties.

The following table gives details of work carried out and visits made.

Properties

1. (a) Total number of Properties (including nearby premises) inspected following notification.
- (b) Number infested by:
 - Rats
 - Mice
2. (a) Total number of properties inspected for rats and/or mice for reasons other than notification.
- (b) Number infested by:-
 - Rats
 - Mice

Carcasses submitted to treatment by refrigeration	1	-	-	-	-
Generalised & totally condemned	-	-	-	-	-
Estimated weight of carcasses and organs condemned - 3733 lbs.					

FOOD HYGIENE (GENERAL) REGULATIONS 1970

With the exception of the Schools' and Hospital's kitchens, all the premises which are subject to the provisions of the Food Hygiene (General) Regulations 1970 were visited on one or more occasion.

Apart from written notices, every opportunity was taken to meet the owners of food premises on the spot to discuss problems and to give advice and make recommendations for improvements.

Licenced Premises

All private clubs, public houses and hotels were inspected with special regard to the Food Hygiene (General) Regulations 1970 and toilet facilities.

Subsequent visits were made with representatives of the breweries and various recommendations were put forward which were still under discussion at the end of the year.

Copies of all the reports which were prepared on the licenced premises were sent to the Clerk of the Justices for his information.

	Number in Area	Number of Premises Inspected
Grocers & General Food Shops	28	28
